- From HYF MANAGEMENT;

"The execution of works built by HYF OBRAS Y SERVICIOS, S.L.U. in the competitive reinforced concrete market, places our business structure in a privileged position, capable of providing quality responses and guaranteeing the viability of our projects, which pursue a single

objective:

THE SATISFACTION OF OUR CUSTOMERS."

“WE BUILD FUTURE PROYECTS”

OUR HISTORY

MORE THAN 30 YEARS BUILDING

PRESENT ON THE ENTIRE ANDALUSIAN COAST

The promotion of holiday homes has become one of its most significant activities for HYF.

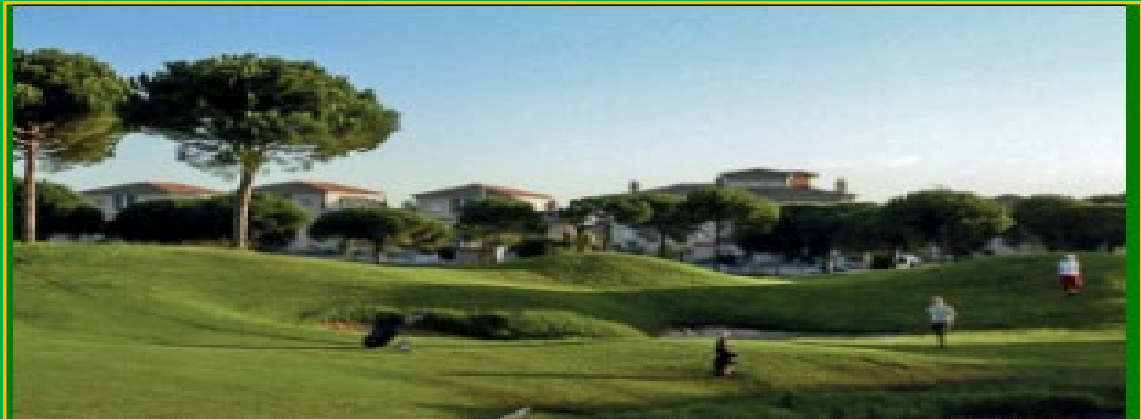

The El Espigón residential complex, on the beachfront, is located very close to the Punta del Moral neighborhood, in Ayamonte. Forming a complete and independent block, the 237 apartments and 261 parking spaces are located in three blocks (Poniente, Central and Levante) with a mixed structure, between the typology of the H-shaped block and the open linear block.

In these spaces there are garden areas, a large multipurpose pool, a solarium, a children's pool, a kiosk-bar and a tree-lined garden.

In Cabopino, a few kilometers from Marbella (Málaga), stands Las Mimosas, a residential complex that is strongly committed to the presence of green in the urbanization.

With a privileged location, in front of the golf course and above the Cabopino marina.

THE SEVILLIAN ALJARAFE

Aljarafe is a region located in the province of Seville, in Andalusia, Spain. The 30 municipalities that make it up together have more than 390,000 inhabitants, making up the largest urban agglomeration in the south of the country, the Metropolitan Area of Seville.

In Gines (Sevillian Aljarafe), the “La Alcoyana” urbanization, the 102 single-family, semi-detached and semi-detached homes form a true neighborhood with its own personality. The homes have two floors plus an attic that gives them a characteristic profile. Garden, private parking and semi-basement illuminated by an English patio are some other features of these bright single-family homes.

143 Homes, premises and
garages “Entrenúcleos” –
Dos Hermanas
(SEVILLA)

SEVILLE CITY

Our service is primarily offered in our city of origin, in SEVILLE CITY.

Constructions such as the airport, the Nervion neighborhood or the Triana neighborhood among others...

Terminal expansion of the SEVILLE AIRPORT.

87 Homes, commercial premises and garages – San Bernardo (Nervión, SEVILLE).

PUBLIC AREAS CONSTRUCTIONS

Within HYF's areas of action, large public facilities reach an important dimension with great future projection.

The facilities of the multinational IKEA in Seville, shopping centers: “AireSur”, “Vialia”, “La Victoria” in Rincón de la Victoria, Málaga and “Metromar” in Mairena del Aljarafe, Seville, are a clear example.

As is, to a greater extent if possible, the construction of the Central Market of Huelva and the parking building linked to it.

METROMAR, MAIRENA DEL ALJARAFE

IKEA, SEVILLA

CONSTRUCTIONS OF SPORTS AREAS

The construction of large sports buildings makes us a national and international reference in this type of buildings.

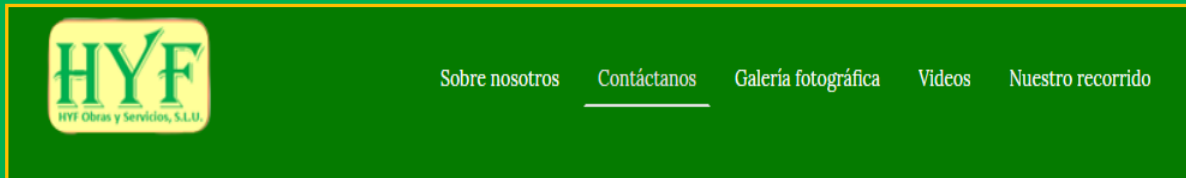

The “La Cartuja” Olympic Stadium, the Real Betis Stadium, both in Seville, and the “Nuevo Colombino” Stadium, in Huelva, are hallmarks of HYF, acquiring a high level of quality in construction and construction techniques.
